The following is an examiner's statement of reasons for allowance: The examiner disagrees with applicant's statement that an increase in pressure has a negligible effect on the solubility of either liquid or solutes in a solvent since applicant's own examples show an increased solubility with the increase in pressure (see Run 1 and 2, table in example 3). However, the examiner does not any motivation to utilize the instant limitation, a pressure higher than an equilibrium vapor pressure of the alkanol-containing solvent at the elevated temperature and between 400 psig to 600 psig, in Yang et al (300 psig) and Booij et al (col. 5, lines 5-15 of US 5,840,773, 2 MPa=290 psig) since both patents teach utilization of the vapor pressure of the extraction agent (alkanol and alkanol/water) at the temperature of the extraction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H. Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
